After Game Over Designing Policy for Preserving Videogames

PROBLEM: The Video Game History Foundation (VGHF) started managing an online library of games magazines and development materials in 2024, and now needs a collection development policy.

QUERIES:

SERVICES

What are the VGHF's services?
What goals are they building towards?

ACTIONS:

VGHF Records Audit (Works archived on SM)

Query	RUST	3	22	7

[Audit captured VGHF's breadth of services]

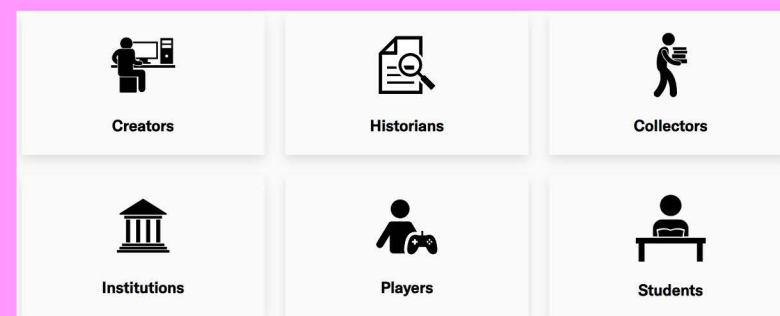

OUTPUTS:

Services Diagram

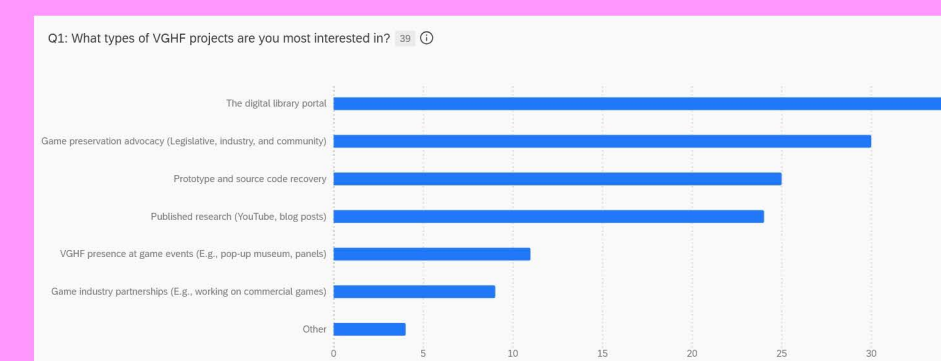

STAKEHOLDERS

Who are the VGHF's stakeholders?
What needs does each stakeholder group have?

Digital Archive Users Survey

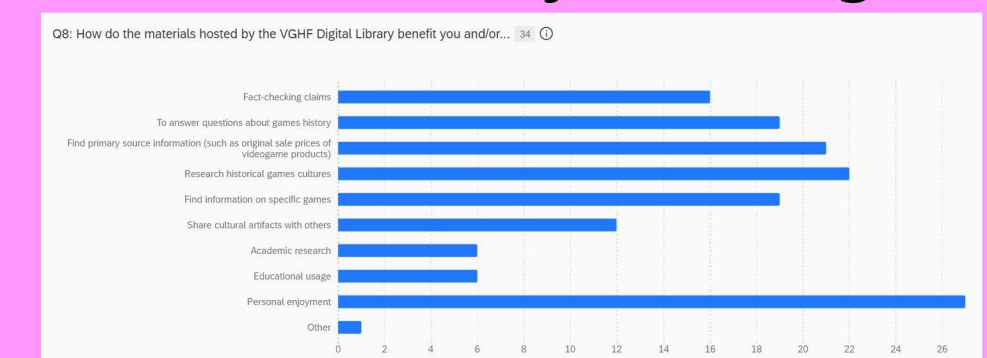

- > Six testing groups
- > 40 users polled
- > Identified 'Preservation Community'

[Still ongoing]

Users Report

- > Users are fulfilled
- > Users unsure of services
- > Youtube is major heritage driver

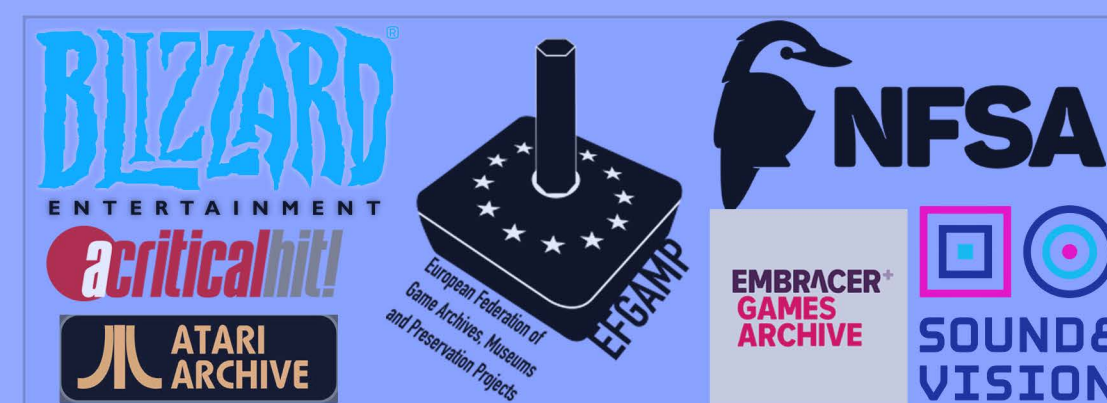

POLICIES

What collection development policies meet the VGHF's specific needs?

- > Represents values and mission statement of non-profit org
- > Supports the new Digital Library that is accessible worldwide
- > Solo librarian on staff allows for limited time to work
- > Accessible, easy to edit, maintains versioning history.

Game Preservation Org Interviews

- > Library 'Power Users'
- > Game developers
- > Games archives
- > Non-Profit online archives

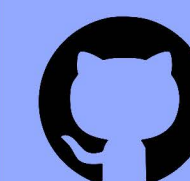

Bonus

New projects exposed for VGHF +
VGHF is now open to new projects from future iSchool MLIS students.
Contact Lane D. Koughan of the GAMER Lab for more information

Collection Development Policy

- > Professional format
- > Itemized version
- > Summary version
- > Automation ready
- > Informs AI tools

Github Infrastructure
> Known by VGHF
> Maintains version history
> Widely accessible & reusable
> Quick to update

Heritage Report

- > Games preservation and "professionalization"
- > Varied definitions for 'Videogame' complicate understandings of 'heritage' (Media vs Software)
- > Special Libraries Only (World waits on US lead)
- > Industry (E.g., Nintendo) as cultural blockers
