Q16: (Optional) Which VGHF activities or content are you the most excited for? 3 ⓘ

(Optional) What content do you most look forward to releasing?

I love everything the foundation does, but I am partial to the video documentaries. Phil's work on the Sega Channel video, and Frank's video on the NES launch were fantastic and full of info and stuff I have never seen before. I am excited to see what they do next!

The magazine archives are my favorite

VGHF continually surprises me with not only the quality of preservation and collected materials, but the types of materials that get coverage on youtube and social media. I'm mostly excited for the surprise, because you never know what game or creator is going to show up! I'm also a big fan of the disc dumps with high-res promotional renders and advertising materials. I think that stuff is super interesting, and it's nice to have a definitive repository for these materials since we've only had poor quality scans, or photographs of some of these things for the longest time. I love what the VGHF does and I hope you exceed all your fundraising goals for years to come <3
